

Chettinad College of Engineering & Technology, Karur

Department of Mechanical Engineering

News Report

Programme Name: IC Engine to E-Vehicle Conversion

Date: 04-11-2023

Venue: New workshop Block –CNCET , Karur.

Number of Participants: 46

Description:

On November 4, 2023, the ChettinadTech Mechanical Department conducted a workshop on 'IC Engine to E-Vehicle Conversion' for Mechanical Engineering students.

In this workshop, students gained insights into the latest advancements in the e-vehicle industry, which is crucial for staying updated in a rapidly evolving field. The hands-on training experience is invaluable as it provides students with practical knowledge and skills, making them better equipped for real-world applications.

E-vehicle conversion involves a mix of science, technology, engineering, and mathematics (STEM) concepts, making it a great way to promote interdisciplinary learning. These workshops also engage faculty members, allowing them to impart their expertise and stay informed about industry trends, ultimately benefiting the students.

Such workshops often provide opportunities for students to connect with professionals and experts in the field, which can be helpful for career development. E-vehicle conversion aligns with sustainability goals and promotes awareness of environmental issues, making it a relevant topic in today's world.

Overall, such workshops play a vital role in enhancing the educational experience, fostering innovation, and preparing students for future careers in emerging fields like e-vehicle technology.
