

# Chettinad College of Engineering & Technology, Karur

## Department of Mechanical Engineering

### News Report

**Programme Name:** Hands-on training Course on IC Engine Assembly & Dismantling

**Resource Person:** 1.Mr.M.Gunashankar,Sr.AP/Mech

2.Dr.M.Chandrasekar,AP/Mech

**Date:** 27, 28 & 29.02.24

**Venue:** New Workshop Block

**Number of Participants:** 38

#### Description:

Engine assembly and dismantling are critical processes in automotive engineering and maintenance. These processes involve the construction and deconstruction of internal combustion engines, which power conventional vehicles. Engine assembly refers to the process of putting together the various components of an engine, ensuring proper alignment and functionality, while dismantling involves disassembling the engine for repair, maintenance, or replacement of parts.
